

Jeanne Dube, Solid Ground Storage, McDade

Jeanne Dube was elected in 2016 to the board and is the owner of two Solid Ground Storage facilities in Elgin. She bought her first facility in October 2010, a drive-up non-climate that was 70 percent occupied. After renovations and by the end of the 3rd year, the occupancy rate was at 100 percent, which encouraged her to build an additional facility. In 2014, she developed a new facility with 325 units that is 88 percent climate controlled. She was the owner/manager of both facilities with part-time help until this past year, when she hired her first full-time manager.
