

OVER TWENTY-FIVE YEARS STRONG

At Advantage Construction, we provide a balanced approach to construction through our comprehensive knowledge and experience with planning, design, and building code. We understand the needs and requirements for a successful self-storage construction project.

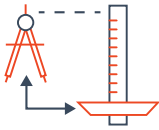

**TRUST IN A COMPANY WITH A PROVEN
TRACK RECORD OVER TWO DECADES LONG**

THE ADVANTAGE PROCESS

PLANNING

We give your idea color, shape and structure while also working with local municipalities to obtain approvals.

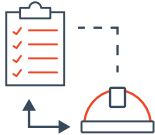

DESIGN DEVELOPMENT

We work directly with your architects and engineers or ours to create effective building design and lot usage.

BIDDING PHASE

We keep this process completely transparent; everything from sub bids to our overhead and profit margin.

BUILDING & CONSTRUCTION MANAGEMENT

A dedicated superintendent manages day-to-day operations while our office team manages all costing, contracting and design approvals.

DESIGN-BUILD + CONSTRUCTION
