

ENERGY
ROOFING SOLUTIONS

To be a leader within the commercial roofing space it is paramount to truly care about being the best. We are driven to settle for nothing less than excellence. We are reinventing the roof buying process through smart technology.

WHAT WE DO

Energy Roofing Solutions is a commercial roofing company with over 25 million square feet of install experience. We are experts in roofing consulting as it pertains to hail damage and product choice. We are confident that you will find our company to offer solutions that are exceptional and make your business more profitable. We are vigilant to prove that our value is better than our competitors and have real experience to substantiate it. Energy Roofing Solutions specializes with loss recovery in commercial roofing issues for building owners, executives and managers.

REPLACEMENT

Did you know that your building can earn you Energy Star Certification just like a refrigerator or lightbulb? We offer Energy Efficient roof replacement for both Flat and Metal.

Energy Roofing Solutions provides a roofing service for all types. We specialize in full roof replacement, repairs and maintenance on flat roofing, metal roofing and shingles. With our strong ideals, we surpass our competition and your expectations keeping you leak free with an innovative and positive experience.

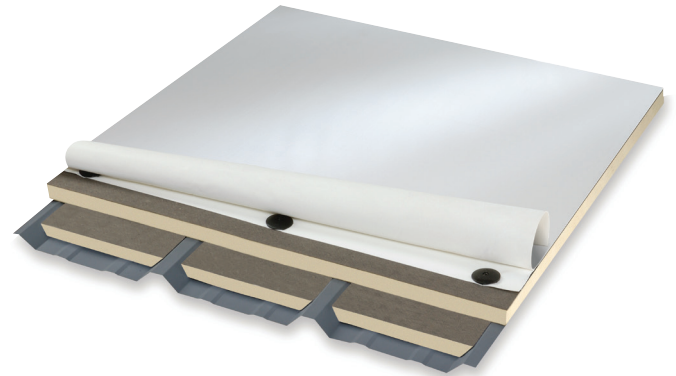

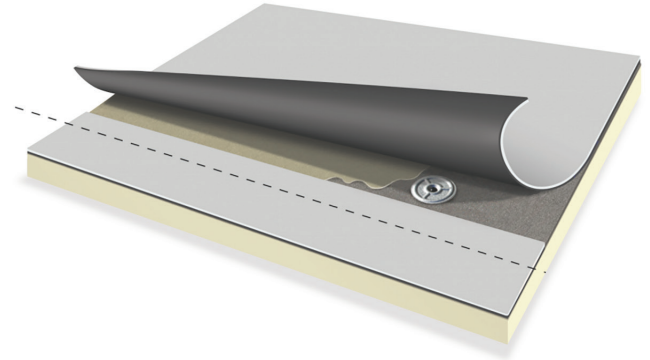

RETROFIT

FLAT AND METAL

A FLAT roofing system should be white. Instead of Asphalt based materials for the flat roof, white single ply's have become the smarter choice.

With METAL, your roof should be assessed properly. Let Energy Roofing Solutions provide you with our single-ply metal retrofit system.

We combine quality workmanship, superior knowledge and low prices to provide you with service unmatched by our competitors.

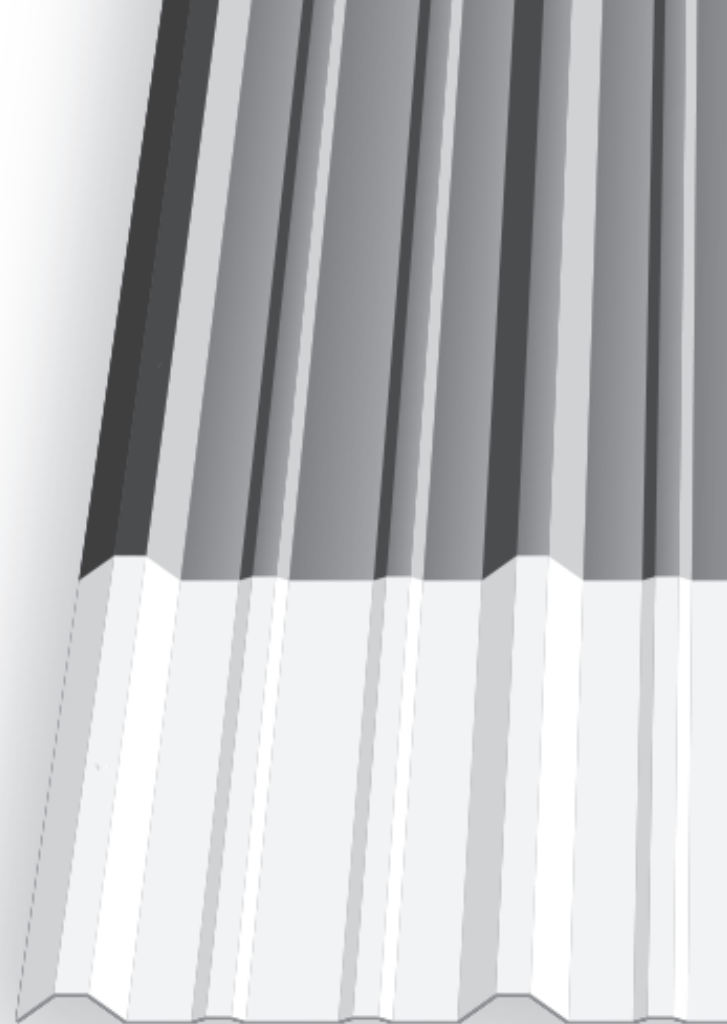

REPAIR

Energy Roofing Solutions proudly installs elastomeric coatings for many roof types. The most common elastomeric restorations will be successfully installed on the following roof types:

- METAL
- EPMD
- PVC
- TPO
- MODIFIED BITUMEN

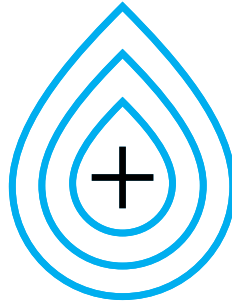

WHY CHOOSE US?

We are confident that you will see why we are the leaders in commercial roofing. We are vigilant to prove that our value is better than our competitors and have real experience to sustain it.

- Free estimates and roof consultations
- Emergency Repairs
- Tax incentive Opportunities for Cool Roofs
- Hail damaged Metal and Flat roof solutions
- Energy Project summary Reports
- Industry leading 15 to 20 year Full Systems Material and Labor warranties
