BEFORE

AFTER

There Is Absolutely No Cost For Our Services To Our Clients.

Energy Roofing Solutions specializes with loss recovery in commercial roofing as it pertains to hail damage for building owners, executives and managers. Our services include:

- New Roof Replacement or Full Roof Restoration Through Insurance Proceeds.
- Free Estimates and Roof Consultations.
- Emergency Repairs.
- Leading solutions for hail damaged metal and flat roofing systems.
- Comprehensive Energy Project Summary Reports.
- Tax Incentive Opportunities for Energy Cool Roofs.
- Industry Leading 15 to 20 Year Full Systems Material and Labor Warranties.

Your property could be a candidate for a full roof replacement and it cost you no out of pocket expense. Call us for a free inspection of your property and let us show you how we rise above our competition.

WATERPROOF POSITIVE

First have an inspection performed to determine if you have hail damage. If you find that you have hail damage, avoid costly delays in payment with 3 simple steps:

1. Call your insurance company and file a claim under your most recent Hail Storm.
2. Your insurance company will have an adjuster contact you. Have your insurance adjuster contact us to set a date and time to inspect your property together. With the best interest of maintaining the value of your property, we insure that all hail damage will be identified.
3. Call Energy Roofing Solutions to provide the best commercial re-roofing service available.

Giving us the opportunity to accurately inspect your property for hail damage will insure a professional assessment of the damages that may exist as well as expedite the process towards successfully completing all repairs.

We look forward to the opportunity to work for you and we will make every effort to earn your recommendation. We have local references that you may know!
