

MOBILE SOLUTIONS

IMPROVED CUSTOMER EXPERIENCE AND EMPLOYEE PRODUCTIVITY

Providing tenants with the convenience of a mobile app to access their self-storage facilities has become a standard for leading operators. The EasyCode tenant-facing mobile app is the most advanced access control security technology in self-storage with over 1,000,000 gate activations to date. PTI gives self-storage owners and operators personalized mobile apps as a resource to enhance customer convenience, increase productivity, and distinguish their self-storage businesses in competitive markets.

EASYCODE

Designed to help self-storage owners and operators create a seamless experience for tenants, EasyCode provides your tenants with the ability to open gates, doors, and view access activity from their mobile device.

“

EasyCode has given SpaceMax the competitive advantage we needed. It allows for us to provide more beneficial services to our customers and charge more than some of the other guys...

- SpaceMax Storage

”

SYSTEM FEATURES

- Seamless renter sign-up process
- White glove facility on-boarding
- Customization and logo placement available
- Easily link to your mobile-friendly payment website from within the app
